« Less saves the planet »

Less saves the planet, the gastronomy
at the service of the environment

We offer an environmental menu and totally Less Saves The Planet: the menu to learn now to eat well by saving the environment.

Indeed, this menu follows particular codes and principles that have a strong and immediate impact on the preservation of our planet. Know that each product in this menu has been carefully selected:

- our meats are guaranteed of origin and their consumption does not cause any animal suffering,
- our fishes and our seafood come from fishing and sustainable farming,
- finally, we are committed to not exceed 130g of animal protein per meal, for the good of the planet and for your health.
 - 20% to 40% of vegan starters,
 - 20% to 40% vegan dishes,
 - 20% to 40% of vegan desserts.

The book « Less Saves the Planet » is available on the website www.less-saves-the-planet.com
